No problem at all a problem!
Have a nice weekend!
I just like to confirm our teleconference next Wednesday 10.00 am CT/ 11.00 ET.
Bioanalytics looks good to me, thanks for all the infos!
We are making progress with the project agreements!
As soon as we have the protocol for the ACCORD JLI study finished, could you please prepare the quotation/work product?
Can we discuss on Wednesday the ACCORD longterm study? We have revised/finalized the protocol summary.
I will send it to you on Monday.
Best regards
Hans

Hans,

Yes, the samples we sent were for days -1, 3, and 8. When Jane asked Julie, one of our clinic associates, to send these samples, she requested 100 ml samples from the above days. Julie interpretted this to mean all of the 100 ml samples for those days. (most participants had three samples) I hope that our shipping these extra samples did not create a problem. Will they need to ship the extra samples back to us?

Bob

>Dear Bob,
>I assume there was some misunderstanding by sending 3 sets of samples.
>Could you please clarify that these samples were from day -1, 3 and 8.
>Best regards
